## STUDENT ACTIVITIES

Internship Program

**TCA** Tokyo Communication Arts College (Eco)

**HUANG TE-WEI**  
2nd Year, Pet Trimmer Major  
Taiwan • Graduated from College of Business Language School

I had attended two internship programs in two companies. Apart from the classroom at school, things I learned in the companies were so fresh. I experienced the different way of pet trimming and cleaning methods that depends on each company. The atmosphere of the pet shops is so different also. Through the on-job training, I found that the things I learned at school are the essential I do not expect to be a professional immediately after graduation, I will master what I have learned in the school and proficiency the skilled toward my best

Internship Program

**ZIN LINN NYO**  
2nd Year, Zookeeping and Animal Feeding Major  
Myanmar • The Osafune Japanese Language School

I, ZIN LINN NYOO, major animal breeding has participated the company project by Kidzania. The purpose for me to join the internship program is because I heard that I would be able to deal with children. After 10 months, I learned how to sell, clean, service, the know-how of the hospitality including the layout of a table, the trash box etc. The daily practices help me to live more independently; so do I can make improvement in communication as well in future.

## SCHOOL EVENT

2015 SSM•SBA  
School Festival~Colorful~

Sapporo School of Music and Dance

### DUNINA IRINA

2nd Year, Creative Design, Manga  
Russia•Graduated from JLI - Japanese  
Language Institute of Sapporo

The students did various "costume plays" during the school festival, it created the whole school much enjoyable atmosphere and I was so impressed personally.

We can tell it's an entertainment school, with a lot of fun, not only the school festival but also the school life, too! From last year's, I got a lot of pleasant memories. This year the festival performed 2 days and the fun turned 2 times of course.

This is my second time to participate in the School Festival. Our Creative Design Department took part in the food stall serving Chocolate Banana. Though it was tough for all the preparation but it was really fun. We were glad that the audiences are happy and satisfied by telling by their smiling face.

We do not have such festival in Russia. It was great and we enjoyed very much as a result of the cooperation by the people from SBA's variety of departments got together on this occasion.

## JOB HUNTING ACTIVITIES

Job Hunting Startup Seminar and  
" Kickoff Ceremony"

### GENG GUO YAO

3rd Year, Super IT Engineer Major  
China•Graduated from Sendagaya  
Japanese Institute

Job Hunting Seminar is held every October prior to the graduation year of students.

A Startup Seminar and a "Kickoff Ceremony" in Tech.C. 2016, is a big change for the duration of availability in job hunting. In order to help those who will graduate in March 2017, they were given the information in details as to lead them with fulfilling their request to get a job.

Seminar contents taught the students how to shoot one's photo for C. V., and the manner for participation in the recruiting seminar of enterprises. Students were very serious and paying a lot of attention.

"I came to learn in this school to "learn how to get a job here" in Japan through all these seminar. I'm thrilled to start job hunting since I'm eager to work sooner. Today I have learned well about our job hunting activities, and I think it was worthwhile to attend this event."

Live Concert Planning and Creator Course  
China•Graduated from Toyo Language School  
Company to Work:DMM futureworks.  
Engagement:Planning and Production

Action Destination comes first, that's the point of my job hunting. Various problems may come out to job hunting for foreign students. What should I start from? What is necessary? There might be too many problems which seem to be too difficult to solve. Therefore, the most effective way is to put all problems together, and sort it priority. then solve it one by one.

I modulate it including preparations for job hunting from the latter half of one year and action comes first by all means. I prepared with action first by sending out many resume, though the result does not come out immediately but I really learned a lot. At last I had

the present job which introduced by the person who I met in a training program during the summer.

DMM.futureworks is a subsidiary of the DMM group and is a company performing new entertainment business of DMM. I am in-charge of producing various contents, using a jolo graphic technology, now showing exclusive in the theater DMM VR THEATER at Yokohama. It is going to unfold in the future from all over Japan and extending to the world. I am supporting a Chinese project, and as a member of the team, I usually help with desk duties as an assistant. I am still under job-training and I am glad that the job helps me to learn many as I am doing my best as I can.

Wanna be a Multi-lingual Agent in World  
Entertainment Business

Tokyo School of Music and Dance

### LEE SU GYEONG

2nd Grade, Live Concert Planning and Creator Course  
Company to Work:KISS Entertainment Inc.  
Engagement:Live Concert Producing

Originally, I was interested in a Korean idol. Having seen Korean artists became famous and grown in the Japanese music industries. The reason why I decided to studying in Japan is because I trust that Japanese music schools are very much advanced. The company I am with now is the music office where my favorite artist belonged to, and I was attracted by their job varieties that it is possible to be engaged in the management directly, and a concert planning and other various things including organizing the fan clubs.

Though I am still a student, I am working as a manager and an interpreter of the artist. I think this job is suitable for me and in future I want to become a manager who can correspond to various artist's management by using a multi-lingual skill including Korean and Japanese language. Least, I think the most important thing is to move before thinking as to work better in the music industries.

# SPECIAL LECTURE

Special Lecture by the world famous guitarist Mr. GUTHRIE GOVAN

TSM渋谷 Tokyo School of Music, Shibuya Campus

Guthrie Govan

Invited world-famous guitarist Mr. Guthrie Govan to Shibuya TSM, a super special lecture was held. With the excitement and high expectation, approximately 100 students assembled in the lecture room, and the lecture was started filled with enthusiasm. At the beginning of the lecture, Mr. Govan played a musical piece from his recent album, and the students were so much impressed seeing his highly sophisticated guitar technique as well as his sound making or the way of doing adlib.

There was a big reaction that the lecture earned the comments from the student who participated as follows; "it was worth having participated in the class changing my part-time job shift", "Anyway, it was super!", "this will show us how to make sounds", "I should practice the guitar much more!".

Especially for the students from English speaking country, the lecture in mother tongue was worthwhile and enjoyable one.
